- Interview Preparation
- Mock Interviews
- One to One mentoring
- Marketing your profile
- Online tests and evaluation
- Interview analysis
- Lifetime on-job support

Why Us?

Because we are not
trainers. We are
practitioners who do
business analysis every
single day on our client's
projects.

Don't just 'learn' Business Analysis. Practice it!!! Learning is just a 'tip' of the iceberg.

Learning is boring.

Business Analysis concepts can be learnt easily these days. Thanks to multiple online resources. But employers prefer candidates with real time experience as Business Analyst is a crucial role which can make or break a project. So, no one will be ready to take any chances with an amateur!! Hence, we need to focus on experience rather than just exposure or just knowing.

Real time experience matters!

How to get the real time experience?

We have designed our workshop in a way to provide 30% theory and 70% practicals to have a blend of both Business Analysis exposure and experience.

Three areas to work towards SUCCESS!!

Learn

Gets hands on exposure on Business Analysis Essentials. A solid foundation.

Practice

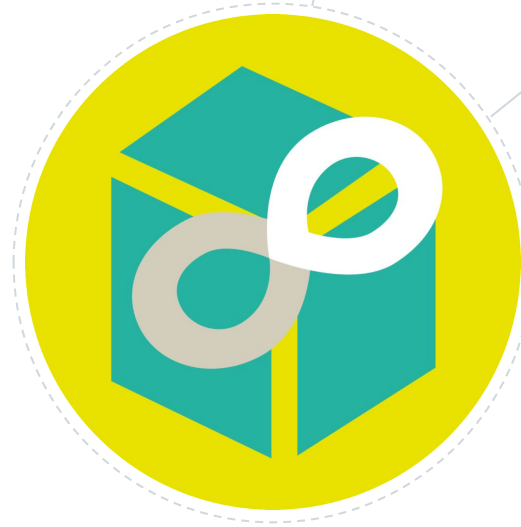

Every topic you learn will be practiced during the workshop to get the real time simulation

Work

You will work on 2 end-to-end project implementations as a Business Analyst.

What you'll work on?

Everything which a Business Analyst with 5+ years would be working on in a project. We believe in outcome not theoretical concepts.

Our Workshop Learning Experience

It Is More Than Your Usual Classroom Sessions

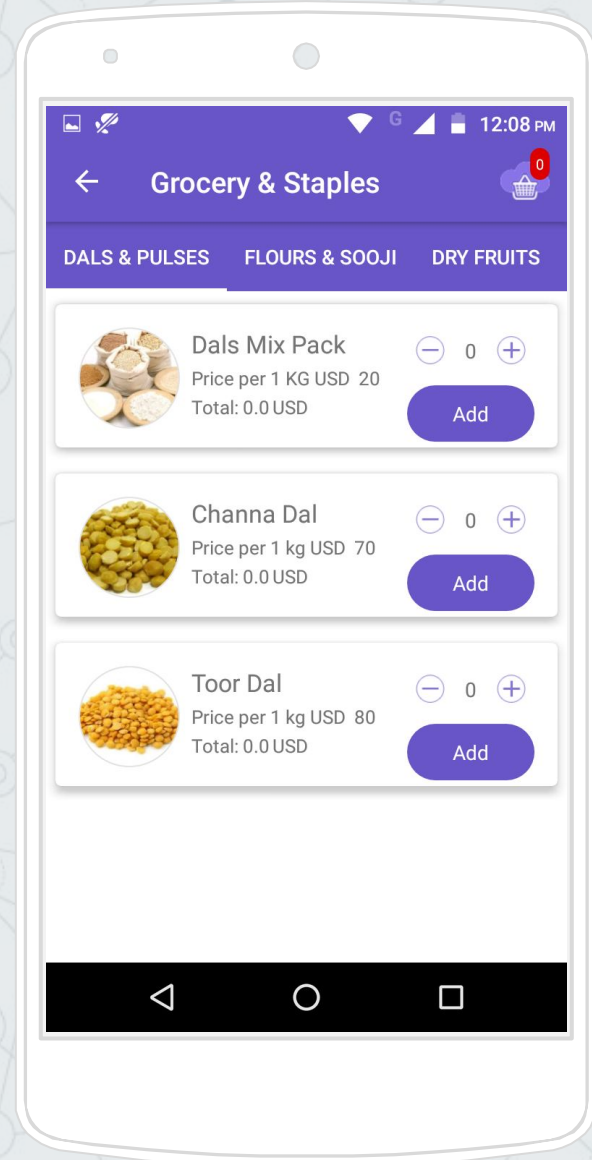

40% **Case Studies & Discussion**
We use actual project case for participants exercises

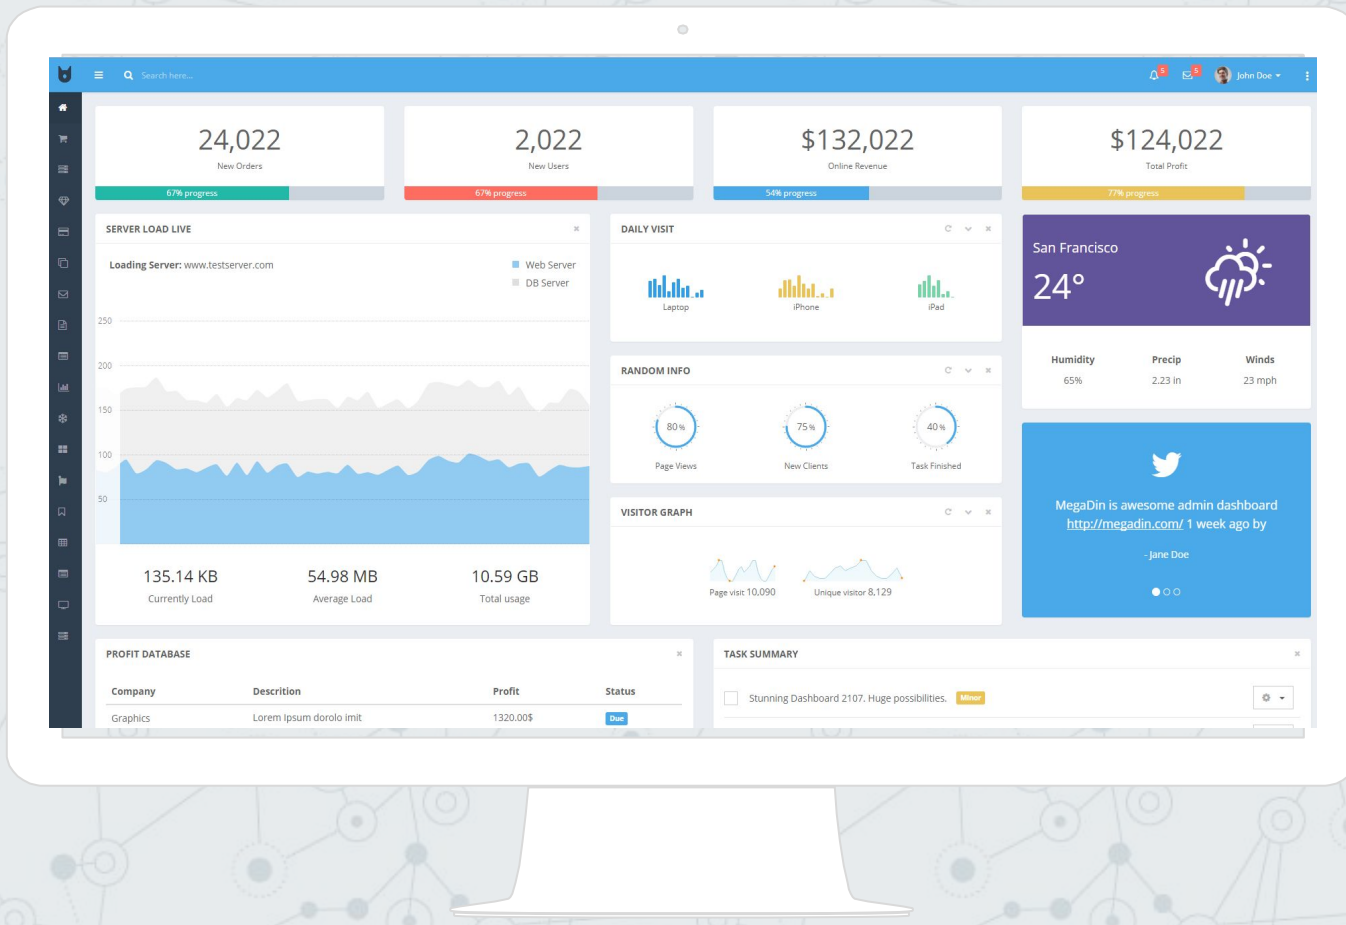

30% **Simulation & Games**
We learn when we enjoy the program. When we engaged.

30% **Theory & Application**
We use less time for theory and focus on the application

Mobile Apps projects

Learn how to initiate and execute mobile applications as a Business Analyst.

Web based applications

Become an expert in managing web based applications as a Business Analyst.

Let's review some highlights

Professional Workshop

Completely practical. Real time. A Solid foundation as a Business Analyst. Work on all the aspects of Business Analyst.

Hands-on Experience

Our facilitators are highly experienced with hands-on actual project experience as business analysts.

Personal Attention

We do not entertain more than 5 attendees in our workshop. Hence we can keep track on everyone's learning needs and deliver the knowledge based on their capabilities.

You Get What You Really Need

Our focus is on your overall development in Business Analysis. We make sure you walk out as a Business Analyst.

24x7 LMS Access

You will get access to our premium Learning Management System 24x7x365. We have covered many topics, articles, white papers and case studies in there. That's loads of information.

Career Counselling

Professional guidance on resume building, interview preparation and identification of relevant opportunities in business analysis field.

Some statistics about us

3000+ attendees

That's a lot of people :)

12+ countries

Yay! We are quite international :)

100% satisfaction

Many placements! Lots of success parties :)

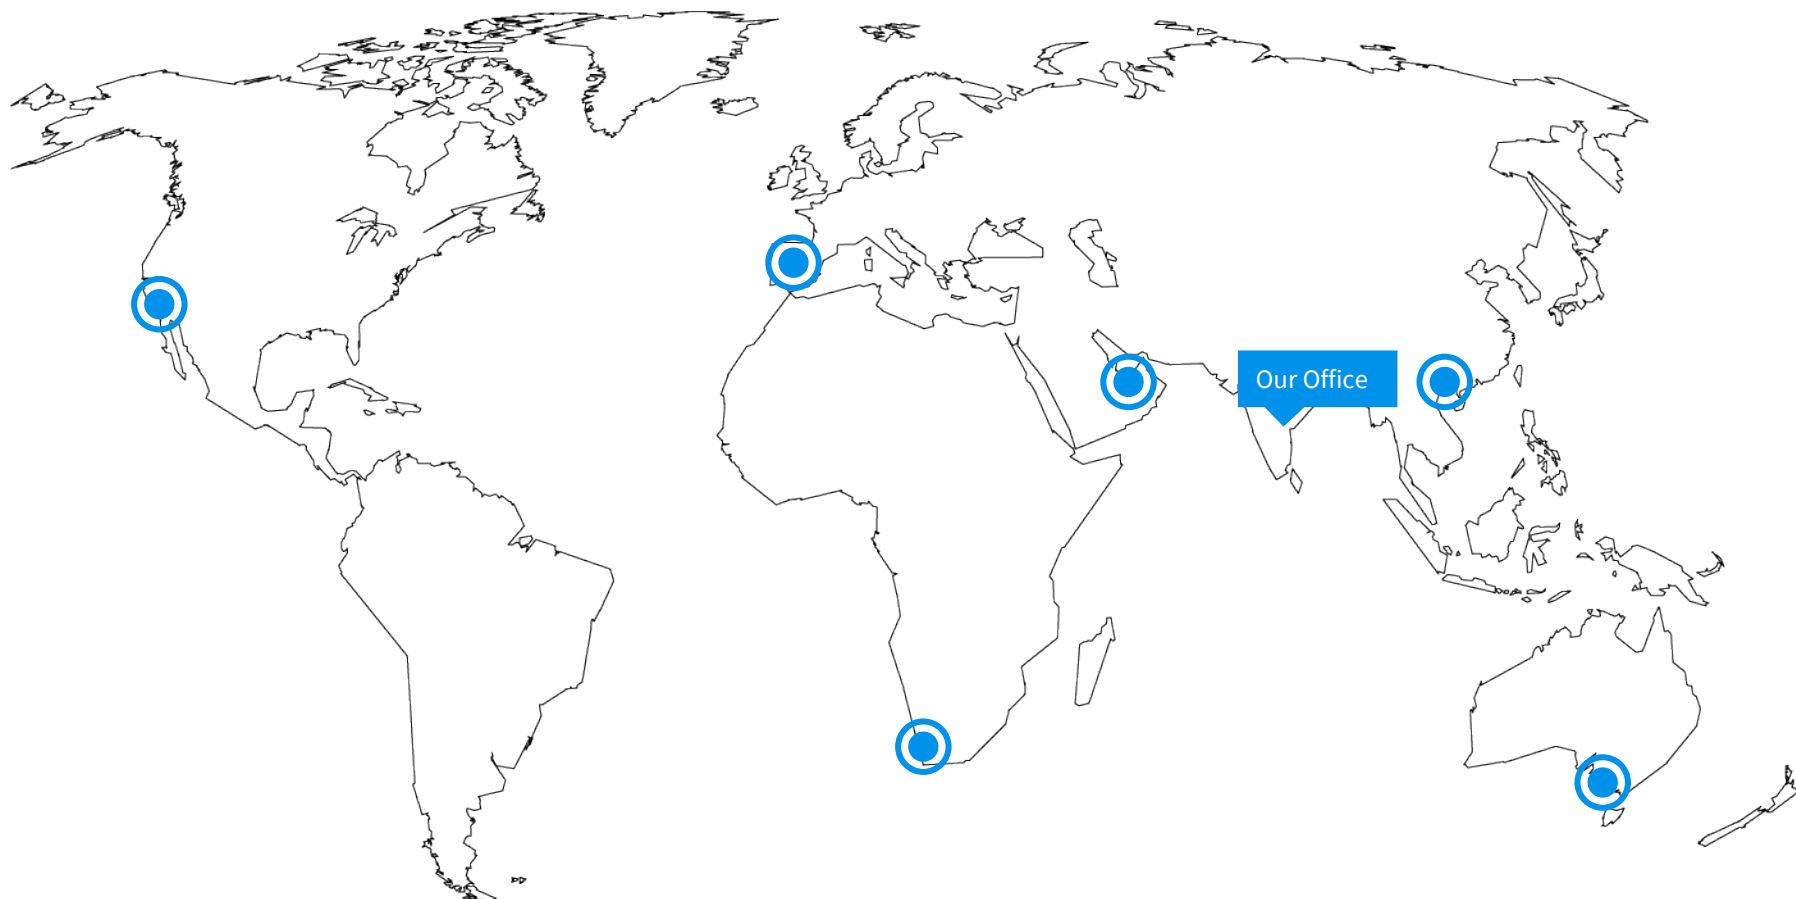

The background of the slide is a light gray network diagram. It consists of numerous small circles, some of which are solid gray and others are hollow with a gray outline. These circles are interconnected by thin, light gray lines, creating a complex web-like pattern that fills the entire background.

1,450,000+

Training
hours till date

Whoa! That's a big number, we are so proud :)

Our reach

 Our training locations

Few companies which hired our attendees

Apart from above, we have almost 60+ companies where our alumni got placed in India and other countries.

A close-up photograph of a hand clicking a white computer mouse. A dashed white circle is drawn over the lower right portion of the image, framing the text.
